FEATURED PRODUCTS

FEATURED COLOSTRUM SUPPLEMENT

Just Like Mom - Aid in the treatment of failure of passive transfer of immunity in newborn calves. Aid in the prevention of death associated with Escherichia coli K99.

- Specific E. coli Antibody Protection
- 50 Grams of IgG Per Dose
- Made with Colostrum
- Pasteurized for protection from Johne's Disease
- Bacteria & Pathogen Free
- Fast Absorption Rate

FEATURED ELECTROLYTES

Hydrafeed - Effervescent Electrolyte product for dehydrated and stressed calves. This unique calf scours treatment provides electrolytes and energy to rehydrate and restore essential nutrients.

- Effervescent - its unique process allows fast, spontaneous and complete water dilution
- Palatable - the combination of a vanilla aroma and the optimum pH provides appeal for the calf
- Easy to use sealed and hygienic packet allows precise dosage
- Milk is not necessary
- Does not contain any antibiotic: no withholding period is required after the treatment
- Contains Lactose

Stamina Plus - New technology for fast rehydration containing essential levels of energy, electrolytes, minerals, buffers, glycine, vitamin E and probiotics. These ingredients are extremely important for fast rehydration.

- Contains maltodextrin. A high calorie, low osmolality energy source
- pH balanced
- Minerals to replace critical shortages for body functions
- Vitamin E gives that extra boost
- Probiotics help calves get back on their feet

FEATURED SCOUR AID

Tri-pectate Tubes - Tri-pectate is a nutritional supplement for calves. It is an all natural product that may help maintain the immune system. Tri-pectate is a convenient, one-time use product for individual calf administration.

FEATURED MISCELLANEOUS

Mineral Max Ultra Paste - As a supplemental source of minerals and Vitamins A, D, E, & B12 for use in periods of stress (such as calving, weaning, shipping, castration), during which feed intakes may be decreased and during which supplemental nutrients may be of benefit.

- BP-1 (2.2 billion cfu's). most cfu's of any other product on the market
- Seven essential minerals
- Four essential vitamins for cattle
- Paste form for easy administration
- Aesthetic blue color
- Rumen specific yeast

Terra Vet 200 - A sterile, ready-to-use solution for the administration of the broad-spectrum antibiotic oxytetracycline by injection. Oxytetracycline is an antimicrobial agent that is effective in the treatment of a wide range of diseases caused by susceptible gram-positive and gram-negative bacteria.

- Each mL provides 200 mg of Oxytetracycline
- Ready-to-use formulation
- Can be used Sub-Q, IV or IM in cattle
- No refrigeration or shaking needed
- BQA friendly
- Wider range of applications
- 28 days slaughter withdrawal, 96 hour milk discard
- Treats a variety of respiratory diseases, scours, pinkeye, and other bacterial infections
- Reduces number of injections and labor

Multimin - provides zinc, manganese, copper and selenium in a readily available form as an injectable, which by passes antagonists in feed, forage, distillers grain and drinking water that can reduce the absorption of these critical trace minerals.
